

Setting Personal Web Space and Site

1. Go to <http://www.asu.edu/selfsub> and add "personal webpage hosting" to your list of services.
-

Once you are done with your Web site folder, you must FTP your folder up to the ASU host server.

We use “Fugu” (File Transfer Program) or Fetch

1. Type in general.asu.edu in the connect box.
2. Type in your ASU rite id and password
3. Drag your folder into the “www” folder.
4. This is your url: <http://www.public.asu.edu/~yourAsuriteID/foldername>
5. To see your files, double-click the www folder.
6. When you make changes to your Web site, drag your resume folder to the trash and drag the revised resume folder to your www folder.

**Use SSH for PC*
